Health Services Branch H-2
Government of Yukon
Box 2703
Whitehorse, Yukon Y1A 2C6

Note: Yukon physicians, pharmacists, and nursing stations will be forwarded a copy of the Yukon Formulary automatically.

Formulary information can be found on the internet at: www.hss.gov.yk.ca
See Publications & Resources, Drug Formulary (left-side link)

PREFACE

The Yukon Drug Programs Formulary has been established to:

- i) Provide coverage to Yukon residents for pharmaceutical products that qualify under the respective program regulations as established under the Health Act.
- ii) Minimize the cost of benefits provided under the respective programs based on current efficacy, price and therapeutic alternatives information.
- iii) Encourage the rational use of prescription drugs.

THE FORMULARY

The Yukon Drug Programs Formulary is a listing of therapeutically effective prescription drugs of proven high quality that have been approved for coverage. It is compiled by the Health Services Branch with the advice of the Yukon Formulary Working Group.

The Director, Health Care Insurance will give final approval of new pharmaceutical products for inclusion to the Yukon Drugs Program Formulary based on the advisement of the Yukon Formulary Working Group. The eligibility of a given product for each program is indicated in the Formulary.

DRUG REVIEW PROCESS

The Yukon Formulary Working Group is responsible for making a recommendation for a drug to be excluded or included in the Formulary, and recommends criteria for drugs covered by Exception status.

Submissions for new chemical entities and new combination products should be forwarded to the Common Drug Review Directorate. In the Common Drug review process, clinical and pharmacoeconomic drug evaluations and recommendations from CEDAC will be forwarded and reviewed by the Yukon Formulary Working Group for consideration. For more information about the CDR and CEDAC, visit <http://www.cadth.ca>

Membership on the Yukon Formulary Working Group is by the appointment of the Director of Insured Health Services (Director), and will include a pharmacist, a physician, pharmaceutical program manager, program officers and other such consultants as may be considered necessary for review of drug. This group meets on a monthly basis to review drug requests, criteria and other formulary issues. In addition, Exception Drug applications are also reviewed. (See page VIII "Exception Drug Status")

Any decision of the Yukon Formulary Working Group can be appealed. Letters of appeal can be sent to the respective programs at the address noted on page (III) and reviewed by the Director when required.

POLICY FOR FORMULARY DELETION

The Director, Health Care Insurance may delete or delist any product from the Yukon Drug Programs Formulary under the following circumstances:

After review of a recommendation from the Yukon Formulary Working Group to delist a product for any of the following reasons:

- a) where the standards of quality and/or production have altered and are not considered to meet accepted standards;
- b) where new information demonstrates that the product does not have adequate therapeutic benefit;
- c) where undesirable effects of the product make the continued listing of the product inappropriate;
- d) where new products possessing clearly demonstrated therapeutic advantages have been listed, thereby making the continued listing of the product unnecessary;
- e) where new drugs do not meet, for any reason, the unique needs and/or requirements of Yukon residents;

Where there are undesirable financial, supply or administrative implications to continued listing of a product, the Director of Insured Health Services, in consultation with the Yukon Formulary Working Group, may delete or delist a drug from the Formulary.

ADVERSE DRUG REACTIONS

Forms and information can be obtained by contacting Health Canada, Drugs & Health Products www.hc-sc.gc.ca

RELEASE OF PATIENT DRUG PROFILES

Yukon Physicians and Pharmacists wishing to obtain a drug profile for patients in their care may do so by submitting a written request, stating the patient's name, address, date of birth and health services number to the respective drug program.

ELIGIBILITY FOR CHRONIC DISEASE PROGRAM

The Chronic Disease Program provides prescription drug benefits to Yukon Health Care registrants who have a specific chronic disease or a serious functional disability as provided under the Chronic Disease and Disability Benefits Regulations. Those who have the cost of prescription drugs covered by another private insurance must use that plan first. Clients must pay the first \$250.00 per annum per individual to a maximum of \$500.00 per family, effective on the 1st of April each year.

Those residents eligible to receive benefits under the Chronic Disease Program may apply to the Chronic Disease Program for a reduction or waiver of the deductible depending on income and family size. The application for reduction of the deductible must be renewed each fiscal year based on the most current information, and be approved prior to benefits being received under the program.

ELIGIBILITY FOR CHILDREN'S DRUG & OPTICAL PROGRAM

The Children's Drug & Optical Program is a program to assist low income families with the cost of prescription drugs and eye care for children under the age of 19 years.

Low income families with children ages 0 to 18 years are covered. If a family has other insurance, that insurance must be used first. A benefit card will be issued for each eligible child. The card will be effective from the date of enrollment to March 31 of the same fiscal year. Families must re-apply each fiscal year. The benefit card must be presented prior to service and the program will be billed directly.

A family may be responsible for paying a portion of the costs every year (deductible). Once the deductible has been paid, the child will be enrolled in the program. The Children's Drug & Optical Program will cover the remaining expenses.

The maximum deductible is \$250 per child, \$500 per family. The deductible may be waived depending upon income and number of people in the family.

ELIGIBILITY FOR PHARMACARE PROGRAM

The Pharmacare Program provides prescription drug benefits to Yukon Health Care registrants who have registered and are eligible for Pharmacare. This program provides coverage for Yukon residents at least 65 years of age and spouses aged 60 years or older. Those who have the cost of prescription drugs covered by another agency or private insurance must use that plan first.

ELIGIBILITY FOR PALLIATIVE CARE COVERAGE

Patients considered to be palliative will be fully covered under the Chronic Disease Program or Pharmacare Program and have their deductible waived. When making application for a patient, physicians will be required to specify life expectancy. Only those applications which fall within the following definition will qualify.

Patients eligible for palliative coverage are those in late stages of terminal illness (life expectancy measured in months) for whom treatment aimed at cure or prolongation of life is no longer deemed appropriate, but for whom care is aimed at improving or maintaining the quality of remaining life (e.g. management of symptoms such as pain, nausea and stress).

This coverage is not intended for cases where active treatment is being continued in the hope of remission or recovery.

PRESCRIPTIONS

PRESCRIPTION QUANTITIES

The respective drug programs will not pay for more than a three month supply of benefits at one time. There must be an interval of 75 days between dispensing 3 month supplies. Physicians shall exercise their professional judgment in determining the course and duration of treatment for their patients.

REIMBURSEMENT OF DRUGS

When clients covered through Chronic or Pharmacare, leave the Yukon Territory for more than 183 (six months) consecutive days, drug and benefit costs are not eligible for reimbursement, starting on the date of departure. A one month extension will be considered on application to the Director of Health Care Insurance where the Yukon is the location of the applicant's only principal residence. On return to the Territory, the resident may re-apply for coverage under the respective program.

Receipts older than 1 year will not be allowed for reimbursement.

MAILING

Payment will not be made for any drug or supply that is mailed from an address outside of the Yukon.

LOWEST COST ALTERNATIVE - PRESCRIPTIONS

Yukon Drug Programs Formulary benefits will be based on the lowest priced interchangeable brand available. Health Canada's Notice of Compliance and Declaration of Equivalence are reviewed for designation of interchangeability. Professional fees included in the cost paid by the respective programs will not exceed \$8.75 or the dispensing fee charged to the Public, whichever is less, as negotiated with the Pharmacy Society of Yukon. Patients will be responsible for any incremental costs associated with the selection of a higher cost brand.

NO SUBSTITUTION- PRESCRIPTION DRUG COVERAGE

It is recognized that rare cases may exist when the lowest cost alternative drug may not be tolerated due to allergies of non-medicinal ingredients, etc. A written exception drug application form is required with medical reason(s) for no substitution. If multiple generics available, a drug history is required. If approved, the respective program will be responsible for the full cost.

EXCEPTION DRUG STATUS

Application Process

Yukon physicians only may apply for Exception Drug Status. Applications must be submitted in writing, and must provide sufficient details to permit thorough, objective assessment. Comprehensive supporting information must be provided. **Please refer to “Exception Drug Status Table” (Green pages) for criteria.**

Initial 30 DAY Approval

When a physician prescribes an Exception drug, an Exception Drug Status Application must be submitted. To provide coverage until the application is reviewed, a 30-day approval for the patient may be requested by the pharmacist. The pharmacist must phone the respective drug program advising them. If the patient is active, the Exception drug will be covered for 30 days providing the drug is listed in the Formulary. All new drugs will be reviewed according to the Common Drug Review process before listing in the Formulary.

If the drug requires a “specialist recommendation” according to Exception criteria, the 30-day coverage will not be granted unless the specialist information is provided.

Examples of EXCEPTION DRUGS REQUIRING SPECIALIST RECOMMENDATION

(See detailed criteria in “Exception Drug Status Table” – Separate green pages)

Acitretin

Botulinum Toxin Type A

Clozapine

Dextroamphetamine

Epoetin alfa (see table)

Etanercept

Filgrastim

Glatiramer

Infliximab

Interferon alfa 2a (see table) & Interferon alfa 2b (see table)

Interferon beta-1A & Interferon beta-1B

Methylphenidate

Modafinil

Oxcarbazepine

Peginterferon alfa 2b (see table) & Ribavirin/interferon alfa 2b (see table)

Tacrolimus

APPLICATION REVIEW FOR EXCEPTION DRUG STATUS

The Formulary Working Group will review applications for Exception Drug status on a monthly basis.

The Formulary Working Group's decision will be communicated to the physician and the patient. Only the physician will be informed as to the therapeutic reasons for non-approval.

If a 30-day approval was granted and the Exception application was approved, the client will continue to be covered. If declined, the program would discontinue payment after 30 days.

Note: Exception Drug Status coverage will remain in effect until such time as the physician requests a change in the status, or until reassessment is required. There are some Exception drugs that have specific time periods for coverage listed with criteria.

See "Exception Drug Status Table" (Green pages)

Applications for Exception Drug Status should be sent to:

Chronic Disease Program
Health Services Branch (H-2)
Box 2703
Whitehorse, Yukon

PHARMACARE AND EXTENDED BENEFITS

Drugs NOT covered by regulations

Over the counter drugs (OTC's) are generally not covered by the Pharmacare Program, except for palliative care and those listed in the Pharmacare OTC Inclusion List.

PHARMACARE OVER-THE-COUNTER (OTC) DRUG INCLUSIONS

Some OTC drugs will be included under the Yukon Pharmacare Plan when a prescription is provided by a Physician: **(Please check Formulary for specific DIN's)**

1. Drugs used to manage heart and vascular diseases (i.e. Nitrostat, ASA)
2. Analgesics for symptomatic relief of arthritic conditions.
3. Gastrointestinal antispasmodics.
4. Muscle relaxants.
5. Therapeutic Vitamins (single-entity) including:
 - Niacin
 - Vitamin A
 - Vitamin B6
 - Vitamin B12
 - Vitamin D
 But excluding Multivitamin supplements.
6. Therapeutic minerals including:
 - Calcium
 - Iron
 - Magnesium (Exception status)
 - Potassium
7. Compounds (Must have one ingredient that requires a prescription.)
8. Other specific products including:
 - Antifungals
 - Clotrimazole
 - Ketoconazole
 - Miconazole
 - Nystatin
 - Benzoyl Peroxide
 - Eurax
 - Hydrocortisone 0.5%
 - Insulin
 - Zostrix

CHRONIC DISEASE AND DISABILITY

Drugs NOT covered by regulations

There are several drugs which are not covered under the Chronic Disease Drug Formulary. A physician can send a request in writing to have a drug considered for formulary inclusion. This request will be reviewed by the Formulary Working Group.

The following classes of drugs are not covered under the Chronic Disease Program:

1. Antibiotics unless used in conjunction with therapy of a chronic disease, i.e. COPD, indwelling bladder catheters, cystic fibrosis, etc.
2. All over the counter drugs (OTC's) except for palliative care items.
3. Postmenopausal hormonal replacement therapy and other hormonal therapy (see exception table).
4. Prescriptions for allergies, allergic rhinitis, etc.
5. Any prescription drug not used specifically for the approved disease state covered under the Chronic Disease Program.

SAMPLE FORMULARY PAGE AND DEFINITIONS

LEGEND

1. Therapeutic drug classification.
2. Therapeutic drug sub-classification.
3. Chemical name of drug.
4. Drug strength and dosage form.
5. The Drug Identification Number (DIN), which has been assigned by the Health Canada.
6. Where there is more than one drug product listed under a drug strength and dosage form the products listed are considered interchangeable for determination of payment purposes under all drug programs. Unless Exception Drug Status has been approved for brand name, only the lowest priced interchangeable generic is covered and patients will be responsible for any incremental cost associated with the selection of a higher cost brand. (Products of same strength that are not interchangeable will not be sorted together.)
7. Brand name of drug product
8. Three-letter identification code assigned to each manufacturer
9. Prices indicated represent the manufacturer's wholesale price
10. Unit that will be used for pricing formula.
11. The symbol <C> indicates that this is a Controlled Drug (Schedule G of the Food and Drugs Act and Regulations). The symbol <N> indicates that this is a Narcotic Drug (Narcotic Control Act and Regulations).
12. The strengths of active ingredients are listed in the same order as the ingredients.
13. The size of vials or injectables is listed in brackets.
14. Products of the same strength that are not interchangeable will not be sorted together (formerly designated by asterisk).
15. Identification code for the drug plan shown in the column below.
 - PHRM - Pharmacare & Extended Benefits
 - CHRN - Chronic Disease Program
 - CDO - Children's Drug & Optical Plan
16. FF (Fill Fee) column identifies whether a dispensing fee will be paid for the respective drug product.
 - Y – eligible for a dispensing fee
 - N – no dispensing fee will be paid
17. The letter code within the drug plan column indicates coverage.
 - E - product is "exception drug status" and coverage must be applied for
 - N - product is NOT a benefit under the respective drug plan
 - Y - product is a benefit under the respective drug plan

EXCEPTION DRUG STATUS TABLE

CHRONIC DISEASE PROGRAM (CHRN)

PHARMACARE PROGRAM (PHRM)

08:00 ANTI-INFECTIVE AGENTS

<p><u>08:12.02 – Aminoglycosides</u> Tobramycin Inhalation Solution</p> <p>Tobramycin iv</p>	<p>CHRN</p> <p>CHRN PHRM</p>	<p>For Cystic Fibrosis patients who do not tolerate injectable Tobramycin when used for inhalation.</p> <p>For treatment of resistant organisms or other special circumstances.</p>
<p><u>08:12.04 – Antibiotics (Antifungals)</u> Fluconazole, Ketoconazole, Nystatin</p> <p>Itraconazole</p>	<p>CHRN</p> <p>CHRN PHRM</p>	<p>Treatment in immuno-compromised patients. Treatment of a condition secondary to an approved chronic disease.</p> <p>For severe fungal infections unresponsive to other therapy (secondary to approved chronic condition).</p>
<p><u>08:12.06 → 08:12.28 Antibiotics</u></p>	<p>CHRN</p>	<p>Case-by-case basis: For treatment of chronic or recurring infections secondary to an approved chronic condition. (Please include anticipated duration of therapy).</p>
<p><u>08:12.24 - Antibiotics (Tetracyclines)</u> Minocycline</p>	<p>CHRN</p>	<p>For treatment of RA on recommendation of Rheumatologist.</p>
<p><u>08:18.00 – Antivirals</u> Ribavirin/ Inteferon alfa-2b Ribavirin/ Peginterferon alfa-2b Ribavirin/ Peginterferon alfa-2a</p>	<p>CHRN PHRM</p>	<p>Positive Hepatitis C serology and ALT > 1.5 times normal for 6 months without any other cause for Hepatitis (i.e. Alcohol), and on recommendation of Gastroenterologist or Infectious Disease Specialist. Review on case-by-case basis. COVERAGE WILL BE PROVIDED FOR 1 YEAR. Coverage for one course of treatment only.</p>

<p><u>(08:18.00 - Antivirals continued)</u> Acyclovir, Famcyclovir, Valacyclovir, Valganciclovir</p> <p>Voriconazole</p>	<p>CHRN</p> <p>CHRN</p>	<p>Case-by-case basis: Treatment of immuno-compromised patients. Valganciclovir - Approval for 6 months.</p> <p>For invasive aspergillosis or other serious fungal infection on recommendation of Specialist.</p>
<p><u>08:18.08 - Antiretroviral Agents</u> All drugs for HIV treatment in section 08:18.08</p> <p>Emtricitabine/ Tenofovir (Truvada)</p> <p>Tenofovir/Efavirenz/ Emtricitabine (Atripla)</p> <p>Adefovir (Hepsera)</p>	<p>CHRN</p> <p>CHRN</p> <p>CHRN</p> <p>CHRN</p>	<p>On recommendation by Infectious Disease Specialist. Guidelines HIVATIS.org.</p> <p>Treatment of HIV-1 infections in those patients experiencing side effects to or with contraindications to other common and less-expensive first-line NRTIs.</p> <p>Case-by-case basis: On recommendation of Specialist.</p> <p>For chronic hepatitis B pts when used in combination with lamivudine, in pts who developed failure to lamivudine and when failure to lamivudine is not due to poor compliance.</p>
<p><u>08:22.00 – Quinolones</u> Levofloxacin, Norfloxacin Cipro (p.o.)</p> <p>Moxifloxacin</p> <p>Cipro (i.v.)</p>	<p>CHRN</p> <p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>For treatment of resistant organisms or those not responding to alternative agents when treating a condition secondary to an approved chronic disease. (Anticipated duration entered on application form).</p> <p>For treatment of resistant organisms (as above) and when alternate quinolones (generic Cipro, Levofloxacin) cannot be used.</p> <p>When unable to tolerate oral form.</p>
<p><u>08:40.00 - Miscellaneous Anti-Infectives</u> Atovaquone</p>	<p>CHRN</p>	<p>For treatment of resistant organisms or other special circumstances. Treatment of a condition secondary to an approved chronic disease.</p>

10:00 ANTI-NEOPLASTIC AGENTS

<p><u>10:00.00 – Antineoplastic Agents</u> Interferon alfa-2a, Interferon alfa-2b, Peginterferon alfa-2b</p> <p>Rituximab</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>Positive Hepatitis C serology and ALT > 1.5 times normal for 6 months without any other cause for hepatitis (i.e. Alcohol), and on recommendation of Gastroenterologist or Infectious Disease Specialist. COVERAGE WILL BE PROVIDED FOR 1 YEAR. Coverage for one course of treatment only.</p> <p>For severe RA, when used in combination with methotrexate and when failure of anti-TNF trial. On recommendation of a Specialist. COVERAGE FOR 6 MONTHS.</p> <p>Re-treatment considered for patients who have achieved a response, followed by loss of effect after an interval of no less than 6 months since dose.</p>
---	--	--

12:00 AUTONOMIC DRUGS

<p><u>12:04.00 – Parasympathomimetic (Cholinergic) Agents</u> Donepezil, Galantamine, Rivastigmine</p>	<p>CHRN PHRM</p>	<p>For mild or moderate Alzheimer’s (with MMSE score 10-26), initiated by a Specialist. Reviewed on a case-by-case basis. Review every 6 months and reapply with updated <u>MMSE score each time</u>.</p>
<p><u>12:08.08 - Antimuscarinics/ Antispasmodics</u> Tiotropium (Spiriva), Long-Acting Beta2-Agonist (Serevent, Oxeze, Foradil), LABA/ Inhaled Corticosteroid (Advair, Symbicort)</p>	<p>CHRN PHRM</p>	<ol style="list-style-type: none"> 1) For COPD, if symptoms persist after 2-3 months of short acting bronchodilator therapy (salbutamol or ipratropium at optimal doses). 2) Please provide post-bronchodilator spirometric evidence of at least moderate to severe airflow obstruction. * 3) If spirometry cannot be obtained, other evidence regarding severity of condition must be provided for consideration. <p>*moderate to severe airflow obstruction, i.e. FEV1<65% and FEV1/ FVC ratio <0.7, and significant symptoms (i.e. MRC 3-5 from Canadian Thoracic Society COPD Guidelines) MRC=Medical Research Council Dyspnea Scale.</p> <p>NOTE: Coverage of combination therapy with Tiotropium + LABA/ ICS considered for moderate to severe COPD.</p>

CHRN = Chronic Disease Program
 PHRM = Pharmacare Program
 Revised: September 2011

<p><u>12:12.00 – Sympathomimetic Agents (Adrenergic)</u></p> <p>Long-acting Beta-2 Agonists (Salmeterol, Formoterol)</p> <p>Combination Therapy: Brand names ADVAIR (Fluticasone + Salmeterol) & SYMBICORT (Budesonide + Formoterol)</p> <p>Salbutamol Diskus</p> <p>Epinephrine</p> <p>Midodrine</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p> <p>PHRM</p> <p>CHRN</p>	<p>For Asthma patients not adequately controlled on inhaled corticosteroids and short acting beta-agonist.</p> <p>Cases reviewed individually: For patients unable to use salbutamol aerosol inhaler.</p> <p>Cases reviewed individually: For patients at <u>very high risk of anaphylaxis</u>.</p> <p>Orthostatic hypotension secondary to approved chronic condition.</p>
<p><u>12:92.00 - Autonomic Drugs - Misc.</u></p> <p>Varenicline (Champix)</p>	<p>PHRM</p>	<p>For adults who have failed to quit smoking and desire pharmacologic assistance. Limited to 12 weeks course (165 tablets) within a 12 month period and should be combined with intensive counseling.</p>

20:00 BLOOD FORMATION & COAGULATION

<p><u>20:04.04 – Iron Preparations</u> Fer-in-Sol Syrup</p> <p>Iron Polysaccharide Complex (Triferexx) & Iron Injection</p>	<p>PHRM</p> <p>CHRN PHRM</p>	<p>Patients unable to swallow solid oral dosage forms.</p> <p>On recommendation of a Specialist for renal failure/ dialysis.</p>
<p><u>20:12.04 - Anticoagulants</u> Dalteparin, Enoxaparin, Nadroparin, Tinzaparin</p> <p>Rivaroxaban (Xarelto)</p> <p>Fondaparinux</p>	<p>CHRN</p> <p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>For treatment of approved chronic condition. (Please specify treatment duration). For long-term outpatient prophylaxis in patients who are intolerant to, or have failed, Warfarin therapy.</p> <p>For prophylaxis of venous thromboembolism following total knee replacement or total hip replacement surgery, for up to two weeks, as an alternative to low molecule weight heparins. Note: total hip replacement may be up to 35 days following procedure.</p> <p>For prophylaxis of venous thromboembolism following surgery. Please specify treatment duration.</p>
<p><u>20:16.00 – Hematopoietic Agents</u> Epoetin Alfa</p> <p>Darbepoetin</p> <p>Filgrastim, Pegfilgrastim</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>..for anemia in chronic renal disease on recommendation of Nephrologist. ..for anemia in HIV or transplant patients on recommendation of Specialist. ..for cancer: non-myeloid malignancies with curative treatment protocols recommended by cancer Agency.</p> <p>For treatment of anemia in chronic renal disease prior to initiation of dialysis on recommendation of Specialist.</p> <p>On recommendation of Hematologist or Specialist. For cancer: restricted to curative treatment protocols recommended by Cancer Agency.</p>

<p><u>20:24.00 – Hemorrhologic Agents</u> Clopidogrel</p>	<p>CHRN PHRM</p>	<p>1) For the prevention of cerebrovascular (e.g. stroke, TIA) and non-cerebrovascular ischemic events in patients who have a contraindication to ASA.</p> <p>2) For treatment of patients who have experienced a TIA or stroke while on ASA.</p> <p>3) For prevention of thrombosis when prescribed following intracoronary stent placement. Coverage provided for maximum one year.</p> <p>4) For reduction of recurrent risk of MI in patients with acute coronary syndrome (i.e. unstable angina or non-STEMI) concurrently with ASA. Coverage provided for maximum one year.</p>
24:00 CARDIOVASCULAR DRUGS		
<p><u>24:06.00- Antilipemic Drugs</u> Ezetimibe</p>	<p>CHRN PHRM</p>	<p>For patients intolerant to <u>statins/ fibrates</u> or patients not adequately managed on optimum doses of <u>statins/ fibrates</u>.</p>
<p><u>24:12.00- Vasodilating Drugs</u> Dipyridamole / ASA</p>	<p>CHRN PHRM</p>	<p>For treatment of patients who have had a stroke or TIA while on ASA.</p>

28:00 CENTRAL NERVOUS SYSTEM DRUGS

<p><u>28:08.04 – Non-Steroidal Anti-Inflammatory Agents</u> Celecoxib</p>	<p>CHRN</p>	<p>Treatment of approved chronic disease where NSAIDS's are contraindicated or patient on concurrent Warfarin or Prednisone therapy. For treatment failure or intolerance to at least three listed NSAIDS's in Formulary. Additionally, for OA patients, a failure of adequate Acetaminophen trial <u>must be documented.</u></p>
<p><u>28:08.08 – Opiate Agonists (Narcotic Analgesics)</u> Codeine Long Acting Codeine / Acetaminophen (Ratio-Emtec) Oxycontin</p>	<p>CHRN CHRN PHRM CHRN</p>	<p><i>Note: Chronic Program - all opiate agonists require physician request on application, specific to chronic condition.</i> Treatment in approved conditions where the use of immediate release codeine preparations are no longer effective. For patients with contraindication or intolerance to caffeine. Treatment in approved conditions where the use of other drugs on formulary are not effective.</p>
<p><u>28:12.12 – Anticonvulsants (Hydantoins)</u> Levocarnitine</p>	<p>CHRN</p>	<p>Recommended by a Specialist.</p>
<p><u>28:12.92 – Miscellaneous Anticonvulsants</u> Oxcarbazepine</p>	<p>CHRN PHRM</p>	<p>For patients intolerant to Carbamazepine or when other drugs in formulary are ineffective.</p>
<p><u>28:16.04 - Miscellaneous Antidepressants</u> Duloxetine</p>	<p>CHRN PHRM</p>	<p>For treatment of neuropathic pain in diabetic pts unresponsive to adequate courses of two alternative agents. Max dose 60 mg./ day.</p>

<p><u>28:16.08 – Psychotherapeutic Agents (Antipsychotic Agents)</u></p> <p>Aripiprazole</p> <p>Risperidone Inj.</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>For treatment of schizophrenia in patients who have failed other less expensive antipsychotic agents because of intolerance or lack of response and on recommendation of Psychiatrist.</p> <p>On recommendation of Specialist.</p>
<p><u>28:20.00 – Respiratory & Cerebral Stimulants</u></p> <p>Dextroamphetamine, Methylphenidate</p> <p>Methylphenidate (extended release)</p> <p>Modafinil</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>Treatment of psychiatric disorder on recommendation of Psychiatrist or Pediatrician.</p> <p>Treatment of psychiatric disorder on recommendation of Psychiatrist or Pediatrician and where other forms of Methylphenidate have been ineffective.</p> <p>..on the advice of a Neurologist or sleep disorder Specialist for approved condition for Chronic Disease.</p> <p>..on the advice of a Neurologist or sleep disorder Specialist for Pharmacare.</p>
<p><u>28:24.08 – Anxiolytics, Sedatives & Hypnotics (Benzodiazepines)</u></p> <p>Alprazolam, Bromazepam, Chlorazepate, Diazepam, Flurazepam, Lorazepam, Oxazepam, Temazepam</p>	<p>CHRN</p>	<p>For short term only treatment of approved psychiatric condition, or muscle relaxant for appropriate condition.</p>
<p><u>28:24.92 - Miscellaneous Anxiolytics, Sedatives & Hypnotics</u></p> <p>Chloral Hydrate</p>	<p>CHRN</p>	<p>Treatment of approved psychiatric condition.</p>
<p><u>28:92.00 - Miscellaneous CNS Agents</u></p> <p>Atomoxetine</p> <p>Rasagiline</p> <p>Riluzole</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>Treatment of ADHD in pts who failed treatment of methylphenidate and an amphetamine, on recommendation of a specialist.</p> <p>Used as adjunct therapy for Parkinson's Disease on advice of Specialist.</p> <p>For patients diagnosed with ALS on recommendation of Specialist.</p>

40:00 ELECTROLYTIC, CALORIC & WATER BALANCE		
<u>40:12.00 – Replacement Agents</u> Magnesium Glucoheptonate Magnesium Phosphate Effervescent	CHRN PHRM CHRN	Treatment of hypomagnesemia secondary to an approved chronic disease (renal/ dialysis). Treatment of hypomagnesemia. For renal/ dialysis.
<u>40:28.00 – Diuretics</u> Bumetanide, Ethacrynic Acid Lasix Special	CHRN PHRM CHRN PHRM	Patients unable to tolerate Furosemide. As recommended by a Specialist .
48:00 COUGH PREPARATIONS		
<u>48:24.00 - Mucolytic Agents</u> Dornase Alfa (Pulmozyme) Mucomyst, Acetylcysteine	CHRN PHRM PHRM	On recommendation of Specialist (Cystic Fibrosis). As a mucolytic agent, by inhalation/ nebulization or on case-by-case basis when recommended by Specialist .
52:00 EYE, EAR, NOSE & THROAT PREPARATIONS		
<u>52:08.00 - E.E.N.T. Anti-Inflammatory</u> Prednisolone	CHRN	Ophthalmic conditions secondary to approved chronic disease.
<u>52:24.00 - Mydriatics</u> Atropine	CHRN	Palliative only.
<u>52:28.00 - Mouthwashes & Gargles</u> Benzydamine (ie.Tantum)	CHRN	For use in immuno-compromised patients at risk of mucosal breakdown. For treatment of mucositis, ulcerative complications of chemotherapy.
<u>52:36.00 - Miscellaneous E.E.N.T. Drugs</u> Alphagan P (generics available without exception)	PHRM	For patients intolerant to Benzalkonium Chloride.

56:00 GASTROINTESTINAL DRUGS

<p><u>56:12.00 – Cathartics & Laxatives</u> Lactulose</p>	<p>CHRN PHRM</p>	<p>For hepatic encephalopathy.</p>
<p><u>56:22.00 – Anti-Emetics</u> Granisetron, Ondansetron, Aprepitant Nabilone</p>	<p>CHRN PHRM PHRM</p>	<p>For use with emetogenic chemotherapy as per cancer agency protocol. Approval for 1 year, then renew as required. For management of severe nausea and vomiting associated with chemotherapy. Any other requests require case-by-case review.</p>
<p><u>56:40.00 – Miscellaneous Gastrointestinal Drugs</u> <u>Omeprazole, Rabeprazole, Pantoprazole & Lansoprazole</u>(multiple generics) <i>(*Pharmacists - please notice Lowest Cost Alternatives in generic brands of PPIs.)</i> Other PPIs <u>NOTE: For Pharmicare</u> generic brands of Omeprazole, Rabeprazole, Pantoprazole and Lansoprazole <u>do not require an exception form.</u> <i>(*Pharmacists - please notice Lowest Cost Alternatives in generic brands of PPIs.)</i></p>	<p>CHRN CHRN PHRM</p>	<p>Approved on case-by-case basis: For treatment of patients <u>high risk for GI bleeding</u> when NSAID or steroid therapy cannot be avoided for approved chronic disease. For patients with Barrett's Esophagus or Inflammatory Bowel Disease. Standard dose approved - include reasons if high dose is required. GERD, dyspepsia or peptic ulcer disease are <u>not covered</u> by Chronic Disease Program. Criteria listed above - - multiple generics available. PPIs can be used for treatment of peptic ulcer disease and chronic GERD, and where H2 blockers are ineffective. For treatment of patients with high risk of GI complications when NSAID therapy cannot be avoided. For the treatment of H. Pylori.</p>

68:00 HORMONES & SYNTHETIC SUBSTITUTES

<p><u>68:08.00 - Androgens</u> Testosterone</p>	<p>CHRN</p>	<p>Coverage for hormonal replacement required for an approved chronic condition (e.g. primary hypogonadism, pituitary disorders). Cases reviewed individually.</p>
<p><u>68:16.04 – Estrogens</u> Estrogens Estradiol inj</p>	<p>CHRN</p>	<p>Coverage only for hormonal replacement required for approved chronic disease. Cases reviewed individually.</p>
<p><u>68:16.12 – Raloxifene</u> Raloxifene</p>	<p>CHRN</p>	<p>For treatment of osteoporosis in women unable to tolerate listed Bisphosphonates.</p>
<p><u>68:20.08 – Anti-Diabetic Drugs (Insulins-Human Biosynthetic)</u> Novolin Set</p>	<p>CHRN PHRM</p>	<p>Patients unable to use other insulin devices.</p>
<p><u>68:20.92 – Anti-Diabetic Drugs</u> Pioglitazone, Rosiglitazone</p>	<p>CHRN PHRM</p>	<p>Treatment of diabetes in patients who are not adequately controlled on Sulfonylureas or Metformin or for patients intolerant to Metformin. (NOT approved in combination with Metformin AND a Sulfonylurea).</p>
<p><u>68:24.00 – Parathyroid</u> Calcitonin Calcitonin Desmopressin</p>	<p>PHRM CHRN PHRM CHRN PHRM</p>	<p>For the treatment of fracture with bone pain for a maximum duration of three months.</p> <p>For treatment of osteoporosis in patients unable to tolerate listed Bisphosphonates.</p> <p>Diabetes insipidus, related to chronic condition</p>
<p><u>68:32:00 - Progestins</u> Progestins</p>	<p>CHRN</p>	<p>Coverage only for hormonal replacement required for approved chronic disease. Cases reviewed individually.</p>

84:00 SKIN & MUCOUS MEMBRANE PREPARATIONS

<p><u>84:04.08 – Anti-Infectives (Anti-Fungals)</u> Ketoconazole</p>	<p>CHRN</p>	<p>Treatment in immuno-compromised patients for approved chronic disease.</p>
<p><u>84:06.00 - Anti-Inflammatory Agents</u> Halobetasol</p>	<p>CHRN PHRM</p>	<p>For treatment of patients refractory to or intolerant of other listed products.</p>
<p><u>84:36.00 – Miscellaneous Skin & Mucous Membrane Agents</u> Acitretin Imiquimod</p>	<p>CHRN PHRM CHRN PHRM</p>	<p>For treatment of severe psoriasis on recommendation of Dermatologist. For cancer pts when surgical treatment is not an option.</p>

86:00 SMOOTH MUSCLE RELAXANTS

<p><u>86:12.00 – Genitourinary Smooth Muscle Relaxants</u></p> <p>Darifenacin (Enablex) Oxybutynin XL (long-acting)</p> <p>Tolterodine Extended-Release (Unidet)</p>	<p>CHRN PHRM</p> <p>CHRN PHRM</p>	<p>Used when multiple dosing of Oxybutynin Chloride causes problems with side effects or efficacy.</p> <p>For patients intolerant to Oxybutynin or when multiple dosing causes problems with side effects or efficacy.</p>
---	---	--

88:00 VITAMINS

<p><u>88:08.00 – Vitamin B Complex</u></p> <p>Cyanocobalamin</p> <p>Leucovorin Calcium (Folic Acid)</p> <p>Pyridoxine</p> <p>Replavite</p>	<p>CHRN</p> <p>CHRN PHRM</p> <p>CHRN</p> <p>CHRN PHRM</p>	<p>Treatment of pernicious anemia. For dialysis patients.</p> <p>For folic acid deficiency from long term drug treatment (SMX / trimethoprim).</p> <p>For dialysis patients.</p> <p>For dialysis patients.</p>
<p><u>88:16.00 - Vitamin D</u></p> <p>Calcitriol or Vitamin D 50,000 IU</p> <p>Alfacalcidol</p>	<p>CHRN</p> <p>CHRN</p>	<p>For treatment of hypoparathyroidism.</p> <p>For chronic renal failure.</p>

92:00 UNCLASSIFIED THERAPEUTIC AGENTS

<u>92:00.00 – Unclassified Therapeutic Agents</u>		
Abatacept	CHRN PHRM	On recommendation of a Rheumatologist . Requests reviewed on a case-by-case basis . Rheumatoid arthritis-used in combination with DMARDs for pts who have failed adequate trial of an anti-TNF agent. NOTE: Not to be used in <u>combination</u> with anti-TNF agents.
Alendronate, Etidronate, Risedronate	CHRN	As per osteoporosis guidelines (from the green pages). (see Footnote 1 end of Table).
Note: Liquid form	CHRN PHRM	Only if unable to use solid oral form.
Botulinum Toxin Type A	CHRN PHRM	For treatment of dystonias and other neuromuscular spasticity problems. Botox requires written prior approval and the recommendation of a Specialist .
Etanercept	CHRN PHRM	On recommendation of a Rheumatologist . Requests reviewed on case-by-case basis .
Febuxostat	CHRN PHRM	For patients with symptomatic gout who have documented hypersensitivity to allopurinol.
Imatinib	CHRN PHRM	For treatment of chronic myeloid leukemia in the chronic phase, in persons for whom Interferon is ineffective, contraindicated or not tolerated. For treatment of chronic myeloid leukemia in the blastic or accelerated phase. Approval for 1 year, then renew.

92:00.00 – Unclassified Therapeutic Agents		
<p>1) Infliximab – for Moderate to Severe Crohn's Disease</p>	<p>CHRN PHRM</p>	<p>For patients who demonstrate continuing symptoms despite the use of optimal, conventional therapies such as 5-ASA agents, glucocorticoids and immunosuppressive therapy. A Specialist recommendation is required. The application requires an outline of the treatment plan. Review on a case-by-case basis. COVERAGE WILL BE PROVIDED FOR 6 MONTHS.</p> <p>**(After initial 6 months, a Specialist recommendation is required for an <u>extended exception period</u>. Renewal each year required.)</p>
<p>2) Infliximab – for Fistulizing Crohn's</p>	<p>CHRN PHRM</p>	<p>For patients with symptomatic enterocutaneous and perineal fistulae, enterovaginal fistulae and entervesical fistulae. A Specialist recommendation is required. The application requires an outline of the treatment plan. Review on a case-by-case basis. COVERAGE WILL BE PROVIDED FOR 6 MONTHS.</p> <p>**(After initial 6 months, a Specialist recommendation is required for an <u>extended exception period</u>. Renewal each year required.)</p>
<p>3) Infliximab, Adalimumab – for Rheumatoid Arthritis</p>	<p>CHRN PHRM</p>	<p>For patients with active rheumatoid arthritis who have failed on at least 2 DMARDS. Treatment should be combined with an immunosuppressant. Recommendation by Rheumatologist required. Request reviewed on case-by-case basis.</p>
<p>Interferon beta -1A, Interferon beta-1B, Glatiramer</p>	<p>CHRN PHRM</p>	<p>For MS patients with a relapsing-remitting disease course on advice of Specialist.</p>

92:00.00 – Unclassified Therapeutic

Agents

Leflunomide	CHRN PHRM	For treatment of rheumatoid arthritis in patients who are not adequately controlled or are intolerant to at least two other DMARDs or as recommended by a Specialist .
Methadone	CHRN PHRM	..For pain management of approved chronic condition when prescribed by an authorized physician. ..For pain management or special circumstances when prescribed by an authorized physician.
Methadone (Metadol Tablets)	CHRN PHRM	Case-by-case basis when patient unable to use liquid or other circumstances. For palliative patients.

OSTEOPOROSIS GUIDELINES

Footnote 1: In order for patients to be eligible for coverage for osteoporosis treatment, the physician submitting the application must provide either the results of a **bone density test**, or list risk factors that pertain to the patient.

High Risk Factors:

- significant family history
- thin, small frame
- early menopause, before age 45
- past menopause
- prolonged use of osteopenic medication
- low trauma fracture

NUTRITIONAL SUPPLEMENTS COVERAGE GUIDELINES

November 2002

Pharmacare Program: Nutritional supplements are covered with a prescription for Seniors clients.

- 1) quantity required should be specified on the prescription.
- 2) renew prescription each year if patient requires longer need of nutritional supplement.

Chronic Disease Program: Nutritional supplements are covered by exception only in our Chronic Disease Program for eligible clients. Guidelines include:

- 1) sole source of nutrition
- 2) congenital disorders requiring a special diet
- 3) inability to eat during cancer treatment/ chemotherapy or
- 4) **specialist** recommendation for an elemental diet.
- 5) quantity required should be specified on the prescription.

INSULIN PUMP GUIDELINES

- As per Formulary Working group recommendation on April 13, 2005, coverage of insulin pumps will be considered for patients with Type 1 diabetes upon receipt of an application that outlines detailed case history and a recommendation by **Endocrinologist**.
- Application should include history of multiple-dose insulin therapy that has failed to keep A1c levels within target limits, evidence of commitment and competence to use pump therapy and support for initiation and follow-up of therapy.
- Requests for reasons of lifestyle choices (eg. competitive sports, work schedules, personal preferences, etc.) will not be considered.
