

# Take the 2% CHALLENGE

Increasing your monthly savings by as little as 2% can have a big impact on your registered pension or retirement savings over time.

See how contributing a little more each month to your retirement plan can make a real difference to your balance over a 25-year period.

## Small changes, BIG RESULTS<sup>1</sup>

<sup>1</sup> Based on contributions invested monthly earning a 5% return for 25 years. This is a hypothetical illustration only, assuming 5% tax deferred monthly compound rate of return. There is no guarantee that the results shown will be achieved, and the 5% assumption may not be reflective of your portfolio of investments. Taxes are due upon withdrawal.

Are you up for the challenge? Take action today!  
To increase your contribution rate, contact HR.
