

Everyone depends on you

SLEEP EASIER KNOWING YOUR FAMILY AND YOUR BUSINESS ARE WELL TAKEN CARE OF IF SOMETHING UNEXPECTED HAPPENS.

You're an entrepreneur, so when it comes to your business, you have both hands on the wheel. You need your employees to run the operation, but the really big decisions fall on your shoulders. In the unfortunate event that you develop an illness or encounter a disability, your company could be like a ship without a captain, and the financial effects could threaten to swamp everything you've worked for.

My advice: Hope for sunshine but plan for rain. Explore products that can help you reduce the financial effects of a personal accident, injury, or illness.

My recommendation: Manulife's group benefits products offer solutions to help absorb the financial fallout that illness or disability can have on the savings and lifestyles of self-employed entrepreneurs like you. A few attractive features to consider:

- **Critical Illness insurance** – Group Critical Illness provides you with a one-time benefit payment so that

you can concentrate on recovery rather than worrying about the bottom line during an illness.

- **Short-Term and Long-Term Disability** – Replace lost income when a serious accident or illness prevents you from working.
- **Out-of-Country Assistance** – Taking a trip abroad? Group benefits from Manulife include comprehensive out-of-country health coverage in case you're injured or become ill while in another country or province.

LET'S TALK.

You can afford to protect everything you've worked so hard to achieve. Ask me how.
