### Pension Adjustment reporting (PA)

**PA:** total of the member's pension credits under a Registered Pension Plan (RPP) or a Deferred Profit Sharing Plan (DPSP) for the year. It is used to calculate an individual's Registered Retirement Savings Plan (RRSP) deductible contribution room.

• The PA amount must be indicated in box 52 of the T4 slip, which must be provided to members by the last day of February following the calendar year to which the slip applies.

**Note:** Please see the T4 slips and Relevé 1 forms – RPP and DPSP page, which can be found in Your group retirement program quick reference guide.

#### Pension Adjustment Reversal (PAR)

**PAR:** figure, which serves to restore RRSP deductible contribution room a member loses when membership in a pension plan is terminated and the member is not fully vested. The PAR is the total non-vested employer contributions that were forfeited for participation in the plan since 1990.

• **T10 PAR slip and T10 summary:** you must send T10 PAR slips to affected members and a copy of the slips as well as the T10 summary to the CRA no later than 60 days after the end of the calendar quarter in which the termination occurs (no later than 31 days after the end of December for the last calendar quarter).

Manulife is able, in many instances, to calculate the PAR and if so, it will be reported to you for inclusion in the T10 PAR reporting slip.

**Note:** An example of a T10 slip and T10 summary can be found in the T10 reporting guide of Your group retirement program quick reference guide. To find out more about PA and PAR Reporting, please visit the CRA website at www.cra-arc.gc.ca/E/pub/tg/t4040/ to consult their T4040 - RRSPs and other registered plans for retirement.
