

Summary of regulatory filing requirements

Saskatchewan

Pension legislation filing requirements

Plan registration

Pension plans are registered under both:

- The Income Tax Act (with the Canada Revenue Agency (CRA)), and
- The Saskatchewan Pension Benefits Act.

A registration package is prepared by Manulife in accordance with the plan specifications supplied to us. The required documents are then forwarded to you for signature and are submitted by Manulife to the CRA and the Saskatchewan Financial Services Commission.

Plan amendment

Any amendment must be filed with the CRA and the Saskatchewan Financial Services Commission.

- **Filing delay after amendment is made:** 60 days

Annual Information Return (AIR)

AIR: report of all plan activities (membership, plan amendments, contributions, terminations, etc.) occurring during the plan year. It must be prepared and filed after each plan year with the pension authorities. It serves as a plan registration renewal document. It is also used in order to ensure that the contributions owing to the plan have been deposited in the pension fund and that the plan is administered according to standards. There is an annual filing fee (described on the AIR filing form), which must accompany the AIR.

Annually, Manulife sends out an information package concerning the required legislative filing of AIRs and other reports and can assist in the preparation of these documents. We will complete the required report based on the information we have on file and return it to you for signature and forwarding to the regulatory authorities.

- **AIR filing delay from plan fiscal year-end:** 180 days

Statement of Investment Policy and Goals/Procedures (SIP&G/P)

The plan sponsor must adopt a written Statement of Investment Policies and Goals/Procedures for the plan, which will cover such questions as:

- ✓ Who has investment discretion?
- ✓ What is/are the investment mix/option(s)?
- ✓ What are the investment return objectives?
- ✓ What are the policies respecting conflicts of interest, securities lending and voting rights?

- **The preparation of a SIP&G/P is required.**

Note: A model Statement of Investment Policy and Goals/Procedures for Defined Contribution pension plans can be found on the Manulife VIP Room website for plan sponsors at manulife.ca.

Other filing requirements

Pension Adjustment reporting (PA)

PA: total of the member's pension credits under a Registered Pension Plan (RPP) or a Deferred Profit Sharing Plan (DPSP) for the year. It is used to calculate an individual's Registered Retirement Savings Plan (RRSP) deductible contribution room.

- The PA amount must be indicated in box 52 of the T4 slip, which must be provided to members by the last day of February following the calendar year to which the slip applies.

The image shows a portion of a T4 slip (STATEMENT OF REMUNERATION PAID / ETAT DE LA REMUNERATION PAYEE). A blue box highlights box 52, labeled 'Pension adjustment - line 206 / Facteur d'équivalence - ligne 206'. Other visible fields include 'Employer's name - Nom de l'employeur', 'Year / Année', 'Employment income - line 101 / Revenu d'emploi - ligne 101', and 'Income tax deducted - line 437 / Impôt sur le revenu déduit - ligne 437'.

Note: Please see the T4 slips and Relevé 1 forms – RPP and DPSP page, which can be found in Your group retirement program quick reference guide.

Pension Adjustment Reversal (PAR)

PAR: figure, which serves to restore RRSP deductible contribution room a member loses when membership in a pension plan is terminated and the member is not fully vested. The PAR is the total non-vested employer contributions that were forfeited for participation in the plan since 1990.

- T10 PAR slip and T10 summary:** you must send T10 PAR slips to affected members and a copy of the slips as well as the T10 summary to the CRA no later than 60 days after the end of the calendar quarter in which the termination occurs (no later than 31 days after the end of December for the last calendar quarter).

The image shows two forms: a T10 PAR slip and a T10 Summary form. The T10 PAR slip (FACTEUR D'EQUIVALENCE RECTIFIE (FER)) has fields for Year of PAR, PAR amount, Plan registration number, Social insurance number, and Amendment. The T10 Summary (SOMMAIRE DES FACTEURS D'EQUIVALENCE RECTIFIES (FER)) includes the CRA identification number 0606 000000 and a field for the Plan registration number.

Manulife is able, in many instances, to calculate the PAR and if so, it will be reported to you for inclusion in the T10 PAR reporting slip.

Note: An example of a T10 slip and T10 summary can be found in the T10 reporting guide of Your group retirement program quick reference guide. To find out more about PA and PAR Reporting, please visit the CRA website at www.cra-arc.gc.ca/E/pub/tg/t4040/ to consult their T4040 - RRSPs and other registered plans for retirement.

Important: Please bear in mind that the legislation and the regulations of the pertinent jurisdiction prevail over this summary.
