## How to complete a TFSA Enrolment form for the Participating Spouse

1 This section confirms to Manulife that an applicant may enroll. As plan sponsor, please complete, sign and date this section.

Note that the certificate number can be provided by you or by Manulife.

- 2 Step 1 must be completed by the Employee/Member.
- 3 Steps 2 to 7 must be completed by the participating spouse who is the holder of the TFSA account.
- To ensure benefits are paid accordingly, the holder must designate a beneficiary.
- Québec applicants must indicate if the beneficiary designation is revocable or irrevocable:
  - Revocable = beneficiary can be changed at any time
  - ► Irrevocable = beneficiary cannot be changed unless the current beneficiary consents to the change in writing
- 6 If the beneficiary is a minor, a trustee must be appointed (applicable to applicants outside of Québec only).
- The enrolment form must be signed by the holder wherever a signature is required. Unsigned forms will be returned for signature.

Please notify us promptly of any member's change of address.

- 8 If the investment instructions are incomplete, contributions to this account will be invested in your plan's default fund. Only one option can be selected:
- Option 1: To determine his or her investment profile, the holder may complete the Investor Profile Questionnaire provided in the enrolment kit.

Lifecycle Movement and Systematic Asset Rebalancing (if provided) apply to the mix, unless the holder chooses to opt out by checking the box(es).

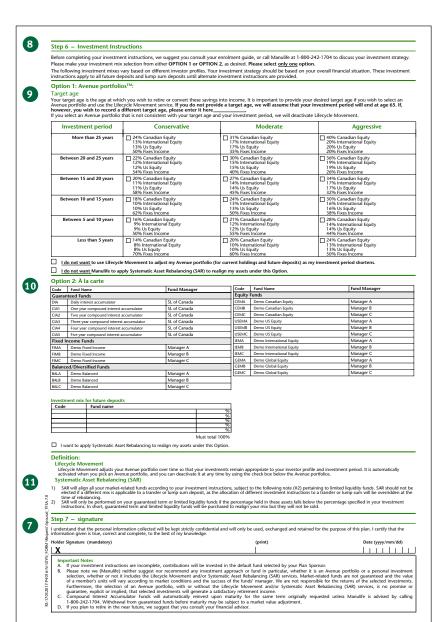

Option 2: For more information on investment funds, the holder may speak to one of our salaried financial representatives, at 1 800 242-1704.

When the holder selects a mix, he or she may also choose to have Manulife (if your plan provides for it) periodically realign his or her assets by checking the box: I want to apply Systematic Asset Rebalancing to realign my assets under this Option.

## 11 Definitions:

What is Lifecycle Movement? Lifecycle Movement adjusts your Avenue Portfolio over time so that your investments remain appropriate to your investor profile and investment period. It is automatically activated when you pick an Avenue Portfolio, and you can deactivate it at any time by using the check box below the Avenue Portfolios.

What is Systematic Asset Rebalancing (SAR)? SAR is a feature that will, on a regular basis, systematically oversee a holder's assets and ensure that they are in line with the strategic allocation. When assets fluctuate over or under the set limit, they will be re-aligned to match the holder's investment instructions based on the SAR option selected.

Forward all original completed enrolment forms to us. For faster processing, be sure to indicate your client number (RS\_\_\_\_\_) on all correspondence.
